CoffeeAna

Our Story

The story of CoffeeAna began in 2022, when our founder set foot in Angola through an investment journey that revealed far more than expected. Beyond its rich natural resources, Angola stood out with its deep-rooted coffee heritage — once recognized as one of Africa's most promising coffee origins.

Inspired by this legacy, CoffeeAna was established to contribute to the revival of Angola's coffee culture through sustainable and responsible production. Working closely with local partners, we source both Arabica and Robusta beans, each reflecting the unique climate, soil, and character of the region.

From carefully cultivated farms to modern processing and roasting, we ensure that every step preserves quality, traceability, and authenticity. Today, CoffeeAna connects these origins to global markets, offering distinctive coffee experiences shaped by heritage, craftsmanship, and a vision for the future.

Our Mission

To deliver the natural essence of Angolan coffee to coffee lovers through organic, high-quality, and sustainable production, while contributing to local development and creating value-driven projects.

Sustainable agriculture and fair sourcing
Freshness-focused roasting and packaging
Transparent traceability and quality control

Our Vision

To restore Angolan coffee to its rightful position in the global market and become a trusted, environmentally responsible, and pioneering brand through sustainable agriculture and innovative production methods.

Expanding brand presence in international markets
R&D and innovative roasting profiles
Enhancing social and environmental impact

The Arabica Series

Grown at high altitudes in the Angolan highlands, our 100% Organic Arabica beans are characterized by their smooth body, vibrant acidity, and nuanced oral and citrus notes. A delicate choice for the discerning palate.

Tasting Profile

- Jabuticaba liqueur aroma
- Ripe exotic fruit flavors
- Sugarcane sweetness
- Notes of rum and liqueur
- Creamy body with a clean finish to be added.

Why CoffeeAna Angola Espresso?

- Aromatic intensity with a rich and complex flavor profile
- Strong fruity character from naturally processed Arabica beans
- Balanced acidity with a full-bodied structure
- Suitable for various brewing methods (espresso, moka pot, automatic machines)

The Robusta Series

Grown in the rich soils of the Angolan lowlands, our 100% Organic Robusta beans are characterized by their full body, low acidity, and bold, intense flavor profile. Distinct notes of cocoa, roasted nuts, and subtle spice create a strong and lasting impression. A powerful choice for those who appreciate depth and character in every cup.

Tasting Profile

- Dark chocolate and cocoa-forward flavor profile
- Deep roasted nutty notes with earthy undertones
- Low to medium acidity with a strong, full body
- Subtle hints of spice and wood
- Lingering bitter-sweet finish with high intensity
